## OBJECTIVE

I look forward to being associated with an esteemed educational institution like yours that is truly international and offers a wide cultural cross-section of students. Above all, where I can learn and help my students learn the value of life, the most precious asset one has, and what they can do to make it better.

For me, being a coordinator or a teacher is not just about doing an administration work or simply a teaching. It is about breathing life into the pages of textbooks and weaving magic into the life of the students every day. It's about inspiring curious young minds and recognizing raw talent and challenging them to think beyond mere words.

## EXPERIENCE

- 2017 – Now - MIT Vishwashanti Gurukul, PUNE
